DERMAPULSE BODY CONTOURING & FAT REDUCTION PROGRAMME with LIPOGON TECHNOLOGIES & CARBOXYTHERAPY

Description

Sustainable weight loss, reduction of adipose (fat) tissue and effective body shaping by means of advanced lymphatic drainage technology, trans-dermal delivery of safe actives into localised fat deposits and complementary supplementation that supports a healthy lifestyle and optimal functioning of bodily systems.

Advanced lymphatic drainage: CARBOXYTHERAPY

What is Lymph?

The lymphatic system plays a vital role in the body's health. It helps to regulate the balance of all fluid in the body. And it's most important function? **Detoxification.**

It's the lymph system's job to pick up and dispose of cellular "trash" like white blood cells, bacteria, viruses, toxins and other molecular debris from every tissue in the body.

Unfortunately there are a number of things that can slow down the flow of lymph, resulting in symptoms such as fatigue, weight gain, swollen and stiff joints, chronic headaches and inflammation, resulting in illness.

A key cause of weak lymph-flow is a lack of physical activity and falling short on water intake. That's because the lymph system relies solely on pressure from breathing and muscle movement to move fluid around.

How does CARBOXYTHERAPY improve lymph drainage?

Carboxytherapy is a treatment that administers the flow of medical grade Carbon-dioxide gas along the superficial lymphatic pathways. The pressure & direction of the gas-flow stimulates stagnant lymph and allows optimal drainage of toxins. The treatment increases micro blood-circulation, increasing the delivery of oxygen and nutrients to the cells and toxins away from the cells. During the session carbon dioxide is also injected into the accumulated adipose tissue (fat pockets) to break down excess fat.

Fat reduction & Body contouring: LIPOGON MESOTHERAPY

Lipogon Mesotherapy is the injection of scientifically formulated ingredients into the affected areas with a technique called mesotherapy.

A powerful cocktail of active ingredients, scientifically formulated with safe and effective ingredients to achieve fat reduction, body shaping and centimetre-loss.

BOOSTING FORMULATION:

Speeds up fat metabolism, general metabolism and movement of emulsified fat into the lymphatic system while stimulating collagen to firm and tighten loose skin in areas where fat reduction occurs.

XT AMINO FORMULATION:

Made up of super amino acids that encourages the body to balance hormones, stimulate higher metabolic rates and build lean muscle tissue. A powerful force of fat burning, collagen forming and energy producing elements at a cellular level.

LIPOGON-ACTIVE FORMULATION

- Phosphatidylcholine (PPC), a component of Soy Lecithin to emulsify fat, prevent fat storage in targeted regions and improve fat burning capacity of the body cells.

- Deoxycholate (DC) keeps PPC in a soluble state and temporarily increasing the permeability of fat cells' membranes to allow the outpour of contents (fat) into the interstitial fluid to be drained away by the lymphatic system.

XT-BOOST EXPEL & ACTIVATE FORMULATION

Powerful Fat Burning ingredients used to accelerate the further breakdown of the dissolved fat in the interstitial fluid by increasing mitochondrial activity in the cell. It triggers the same responses associated with exercise, boosting fat reduction for phenomenal body contouring results.

Testimonial:

Name: Tanya*

Treatment Done: Lipogon Lab Series XT Amino and Lipogon Lab Series XT Boost

Results Obtained: After 1 month

Number of Treatments Done: 2

Body Area Treated: Tummy and "love handles"

TREATMENT PROGRAMME:

Month 1

Week 1:

- Lifestyle consultation
- Diet plan
- Measure client
- Weigh client
- 1x carboxy: lymph & fat pockets
- Start Lipogon supplements

Week2:

- Lipogon injections

Week 3:

- Continue with supplements

Week 4:

- 1x carboxy: lymph & fat pockets
- Measure & weigh-in

Month 2:

Repeat month 1's programme; or Lipogon injections only.
Supplements

Month 3:

Repeat month 1's programme; or Lipogon injections only.
Supplements

TREATMENT COST:

(1x Area = 10 x 10cm)

Month 1

OPTION 1:

4x areas Lipogon @ R450 per area

2x Carboxy R 1100 for both

Total: R 2900

Additional (recommended): Lipogon supplements & shake Starter pack @ R1350

OPTION 2:

6x areas Lipogon @ R450 per area

2x Carboxy @ R 1100 for both

Total: R3800

Additional (recommended): Lipogon supplements & shake

OPTION 3:

8x areas Lipogon @ R450 per area

2x Carboxy @ R1100 for both

R 4700

Additional (recommended): Lipogon supplements & shake

Month 2:

Repeat month 1's programme; or Lipogon injections only.
Supplements

Month 3:

Repeat month 1's programme; or Lipogon injections only.
Supplements

What does the Lipogon slender form starter kit include?

- **Lipogon Slenderform Stater Pack: R1350**

Includes the following:

- ✓ Slenderform Slimming drops (reduces inflammation, boosts lymphatic drainage, reduces water retention, improves insulin sensitivity, decreases the release of Cortisol, reduces cravings). Individual price: R295
- ✓ Slenderform TRIMFX (reduces inflammation, increases lean muscle mass, speeds up process of detoxing, increases fat burning). Ind price: R300
- ✓ Slenderform CLA (Increases fat burning, increases metabolic rate of cells, lowers cholesterol, lowers blood glucose levels, supports immune system). Ind price: R280
- ✓ Slenderform FIRMFx (Increase lean muscle mass, increase collagen levels, improve joint flexibility& bone density, treat arthritis and inflammation, Firms& tones sagging skin associated with weight loss): R300
- ✓ Slenderform Gluten-free, sugar-free SHAKE (Replaces 1 meal per day, 5 days per week. Rest 2 days. Blocks fat storage, blocks absorption of Carbohydrates, promotes fat burning, improves insulin sensitivity, aids digestion, reduces carb cravings, and stabilizes blood sugar levels). Ind price: R400

- **Optiphi Topical Body Contouring Cream (Medical): R850**

A medical-grade topical cream that targets the underlying causes of cellulite by curbing the ill-effects of trapped fluid and by acting against the fat nodules responsible for the appearance of cellulite. The product supports the reduction of stubborn adipose (fat) deposits by increasing the intercellular energy of the cell, while tightening and firming the tissue. The addition of Retinol aids in the improvement of sun damage and visible signs of aging.

Slimming drops 100ml – Reduce inflammation, speeds detoxifying effect, reduce water retention, improves insulin sensitivity, reduce cravings, and decrease the release of cortisol.

TRIMFX 60 – Increase fat burning, reduce inflammation, increase lean muscle mass, speeds the process of detoxing, decrease release of cortisol, reduce cravings, appetite suppressant, increase insulin sensitivity.

CLA 90 – Enhance muscle growth, increase fat burning, increase metabolic rate, lowers cholesterol, lowers blood glucose levels, support the immune system.

FIRMFx 30 – Lifts, firms and tone sagging skin, increase lean muscle mass, increase collagen levels, increase joint flexibility, increase bone density, treats arthritis and inflammation.

Meal replacement SHAKE - Gluten & Sugar free, fuller for longer, block absorption of carbohydrates, blocks fat storage, promote fat burning, aids digestion, stabilizes blood sugar.
